Description of service

This community-based service was established in 2011. It operates a full day care service from 08:30 –17:30 hrs for children aged 0-6 years, Monday – Friday from a purpose-built facility and offers a play-based curriculum. Children are accommodated in four different rooms according to their age group. There is one sleep room in the service and children also rotate to the main entrance hall, which is a large space for the children to play in. Children have access to sanitary accommodation areas, and outdoor play facilities are located directly off each playroom.

A full-time outdoor play group is available to children who attend the early childhood care and education scheme (ECCE scheme) Monday to Friday 09.30 – 12.30 hrs. Appropriate all weather clothing and wellingtons are worn by both the children and the staff when required. Children in this group have their snacks and dinners outdoors in a sheltered space which was specifically built for this purpose. Heating, toilet facilities, hot water and a changing room are available in the outdoor play space.

Staffing

There were sixteen staff with childcare qualifications working directly with the children in the service which included the person in charge. The adults engaged in on-going professional development including first aid training, manual handling and fire safety training. The registered provider does not work on site. Additional support workers such as a play therapist and family support worker are available on site to work with children, families and staff.

Methodology

Tusla's Early Years Inspectorate is the independent statutory regulator of early years services in Ireland. The Child Care Act 1991 (Early Years Services) Regulations 2016 define the duty of a registered provider to ensure the safety and well-being of children and to comply with these regulations. This Act also gives Tusla the authority to assess compliance with the regulations. The purpose of regulation in relation to early years services is to ensure that the care, safety, and well-being of children attending such services is upheld. Inspections of early years services are planned based on the following:

- Previous inspection history
- Any information received in relation to the service

The findings on inspection are based on:

- Information obtained through examination of documentation

Early Years Inspectorate Regulatory Report

Pre School

- Direct observation
- Discussion with relevant staff

This inspection was unannounced and focused on the area of governance, health, welfare and development of child, safety, premises and facilities. The inspection may also focus on other areas as required.

The inspection focused on an examination of compliance under the following regulations:

Regulation 9 (1)(a)(b)(2)(a)(b)(c)(d)(3)(4)(7) – Management and recruitment.

Regulation 11(2) - Staffing levels.

Regulation 19 (1)(a) -Health welfare and development of the child

Regulation 22 – Food and drink

Regulation 24 - Checking in and out and record of attendance.

Regulation 25 - First aid.

Regulation 26 - Fire safety measures.

Regulation 28 – Insurance.

Regulation 29 - Premises.

Inspection findings are documented in the inspection report which is first issued in draft format to the service with an opportunity to respond to any findings. Where statutory requirements are identified as not being met, the registered provider must demonstrate how they have rectified the non-compliance and will prevent any non-compliance from re occurring. The Corrective Action and Preventive Action plan (CAPA) will be used to inform decisions about compliance with regulatory requirements. Where the registered provider fails to meet the statutory requirements an escalation process may be commenced.

The inspectorate reserves the right to edit responses received for reasons including clarity, completeness and compliance with administrative and legal processes.

The contents of the report are compiled by the inspectorate body.

Acknowledgments

The inspector wishes to acknowledge the cooperation of the person in charge, staff and children who were present on the day of the inspection.

Part V - Care of Child in Pre-school Service

Regulation 19 - Health, welfare and development of child

(1) A registered provider shall, in providing a pre-school service, ensure that-

(a) each child's learning, development and well-being is facilitated within the daily life of the pre-school service through the provision of the appropriate activities, interaction, materials and equipment, having regard to the age and stage of development of the child, and

Compliance Information

(1)(a) BASIC NEEDS:

The service provided dinner for the children which was prepared on site by the cook and corresponded with the healthy eating policy and menu plan of the service. All children who attended the service on a sessional, part-time or full-time basis had a hot meal every day. Food observed on the day of the inspection included: bacon, cabbage and mashed potatoes. Drinking water was available throughout the day if a child needed a drink. The children sat together around the tables and were given as much time as they needed to eat their food.

Children who were toilet trained toileted independently with assistance given to those who needed it. Nappy changing took place by staff in the sanitary accommodation in line with the nappy changing policy, and staff were observed to wear gloves and aprons. Staff were observed to wash their hands before and after nappy changing which helped prevent the spread of infection. The children were encouraged to wash their hands at appropriate times such as after toileting and before eating. Hand washing was facilitated in the sanitary accommodation with a supply of hot and cold running water and liquid antibacterial soap.

Children were allowed to move freely indoors and outdoors from one activity to the next for specific periods of time. Quiet/rest areas were developed in each room where children could sit and relax in. Children in the toddler room were observed to sleep for an hour on sleep beds in the room after they had dinner. Consent forms had been signed by parents for these children to allow them sleep on floor beds as they were less than two years of age. Staff remained in the room while the children slept, and sleep checks were recorded every 10 minutes.

The children enjoyed freedom of movement within the pre-school rooms. There was a plentiful supply of play props available to support sensorial play. Play equipment was placed in baskets and boxes on the floor to make it more accessible to the children. The children were supported and encouraged to behave appropriately for their age and stage of development through having simple rules to follow and a good level of choice of activities. The

adults modelled positive behaviour for the children and the children were praised for their good behaviour. The key person system was evident in each room of the service, and each room had a team leader which supported children to form and sustain secure relationships with the adults.

Additional play equipment and playhouses were added to the outside play area where children were observed organising their own play activities.

Part V - Care of Child in Pre-school Service

Regulation 22 – Food and drink

A registered provider shall ensure that adequate and suitable, nutritious and varied food and drink is available for each pre-school child attending the pre-school service.

Compliance Information

The service ensured that all children who attended received a nutritious and varied diet, which took the individual needs and preferences of all children into consideration.

Bacon, cabbage and mashed potatoes was served for dinner on the day of the inspection and children were offered second helpings.

Snacks were available if a child did not wish to eat their dinner.

Dinner time was not rushed, and staff were observed to sit with their group to support eating and drinking.

Drinking water was available in each room should a child become thirsty.

The menu plan demonstrated that processed food was not served on a regular basis.

Part VI - Safety

Regulation 24 - Checking in and out and record of attendance

(1) A registered provider shall ensure that each pre-school child attending the service is checked in and out of the service by an employee or an unpaid worker.

(3) A registered provider shall ensure that-

(a) no person other than-

(i) pre-school child attending the service,

(ii) a person dropping or collecting such a child,

(iii) an employee, or

(iv) an unpaid worker, can enter the premises without his or her entry being approved by an employee, and

(b) a daily record in writing is kept of the entry on the premises of any such person.
